## *Become A Successful FOREX Trader*

Forex (foreign exchange) or currency trading is one of the most popular forms of trading. Every day, trillions of dollars worth of forex trading occurs, the market is open 24 hours on 5 days per week and currency values are among the fastest to react when a major news about a country's economy comes out.

At Tradimo, we see learning to trade forex as a great preparation for learning to trade anything else. Even if you would like to become a stocks trader, forex plays an important role for you, because when you own stocks denoted in a different currency than your own country's currency, you are actually also making a forex trade. And sometimes, when you live in a country whose currency is very unstable, not taking action, i.e. owning foreign currencies or assets denoted in foreign currencies, can be a big risk as well.

The Forex Trader Degree at Tradimo is divided into five terms designed to provide you the knowledge and practical experience to become a successful Forex trader. With each level, the difficulty increases and you gain a deeper understanding of how everything fits together. All important aspects of forex trading are taught. These include: general trading knowledge, fundamental analysis, technical analysis, trading psychology and concrete trading strategies.

For the entire duration of this degree, you can contact us at any time and ask questions. We will also give you personal feedback on all of your projects in each term and ensure you have understood everything perfectly.

# TERM01

## *Was ist Forex Trading?*

Term 1 teaches you the essential things to get well prepared for the topic of Forex deeper. You will get a strategy that allows you to implement with clear rules without having to make a subjective or emotional decisions. This strategy is designed as a pure learning module, you will learn more about Money Management, Swings, entry, stop loss and take profit, and you will get to know some indicators. The knowledge that you learn with this beginner strategy is deepened in further courses.
